

Open Position Field Quality Control Rep

Job Brief

The Field QC Rep is a service and quality focused representative that ensures our customer's needs are met in the most efficient way as well as ensuring our product quality is maintained in the field.

Job Requirements

- Personable with drivers and customers
- Efficiency focused
- Proficient with smartphone-based communication
- Clean driving record
- Trustworthy and honest
- Excellent time management
- Experience in concrete – preferred ACI Field Tech Certification
- Six days per week schedule
- Skilled in basic math

Job Responsibilities

- Ensure safety and efficiency by being on site for concrete pours as directed by Field QC Manager
- Make sure all field test results are logged and communicated to dispatch
- Relay customer communications to dispatch
- Oversee field testing technicians to ensure Duke City quality is protected and well represented
- Complete raw material testing at the batch plant as needed
- Key Performance Indicators (KPI's):
 - All test results communicated accurately and timely
 - Load adjustment accuracy of 95%+
- Reports To: Field QC Manager

If you're a team oriented worker that takes pride in seeing a job well done within a dynamic team at Duke City Redi-Mix, please submit your resume outlining your work experience and your reasons for wanting to join our company.

Join us in our mission to deliver high-quality concrete products and contribute to our goal of Building a better New Mexico.
